

Texas ranks 39th of 50 states in HPV vaccine completion. Through knowledge dissemination, HPV Project ECHO will equip professionals with best practices for increasing completion rates.

Moving Knowledge, Not Patients

Through technology-enabled collaborative learning, ECHO creates access to high-quality specialty care in local communities.

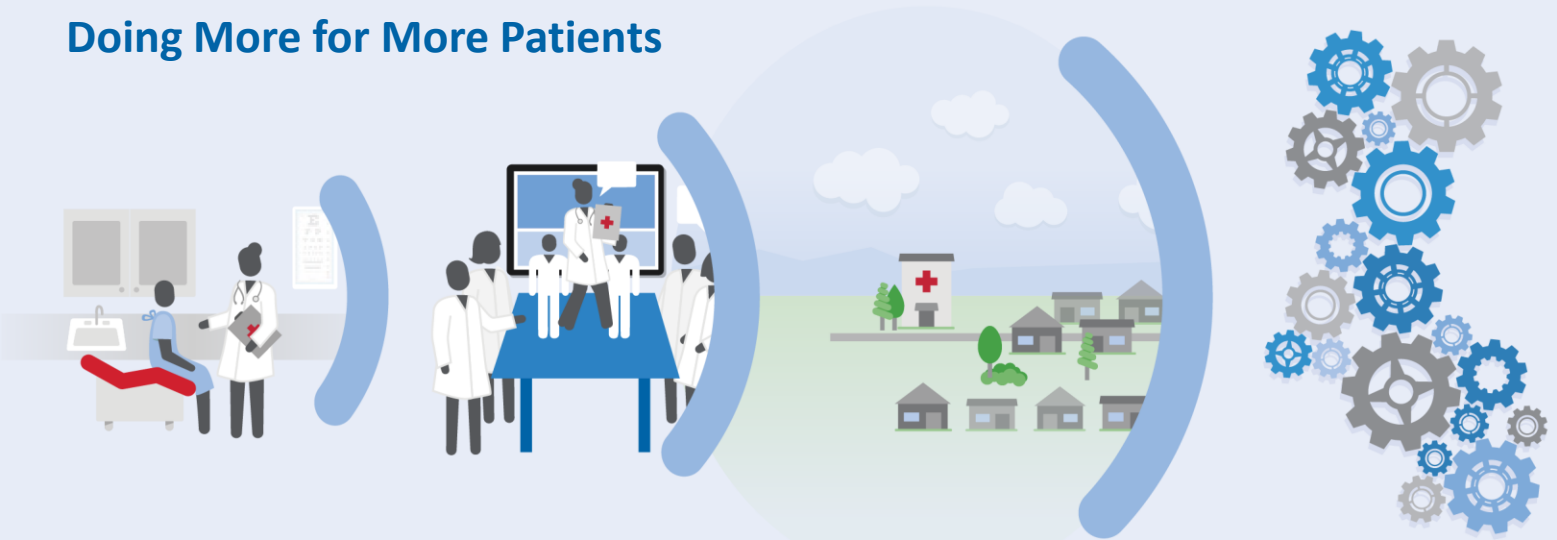

Hub and spoke knowledge-sharing networks create a learning loop:

Community providers learn from specialists.

Community providers learn from each other.

Specialists learn from community providers as best practices emerge.

Doing More for More Patients

PATIENTS

- Right Care
- Right Place
- Right Time

PROVIDERS

- Acquire New Knowledge
- Treat More Patients
- Build Community of Practice

COMMUNITY

- Reduce Disparities
- Retain Providers
- Keep Patients Local

SYSTEM

- Increase Access
- Improve Quality
- Reduce Cost

Changing the World, Fast

TEXAS

- Launching 1st HPV ECHO Clinics March 2020.
