Use new CPT-4 codes when billing in 2019

The Centers for Medicare & Medicaid Services (CMS) and the American Medical Association (AMA) are making changes to:

- The Current Procedural Terminology (CPT-4) code sets

These changes include deleting some existing codes and replacing them with other codes. These changes are effective for dates of service on or after January 1, 2019.

Since DHS has not published rates for the new codes:

- We’re adding this mapping to ensure consistent payment until such time that DHS provides us updated rates. Those rates will now apply to the new CPT-4 codes that are replacing the deleted codes.
- The updated rates will be applied retroactively to January 1, 2019
- We will go back and reprocess claims that have paid at a default rate

Please use the new codes when billing us for services with dates of service on or after January 1, 2019.

We use nationally recognized coding structures including—but not limited to—revenue codes as described by the Uniform Billing Code, AMA Current Procedural Terminology (CPT4), CMS Common Procedure Coding System (HCPCS), Diagnosis Related Groups (DRG), ICD-10 Diagnosis and Procedure codes, National Drug Codes (NDC), the American Society of Anesthesiologists (ASA) relative values for the basic coding and description for the service provided. In all circumstances, applicable federal law, including Health Insurance Portability and Accountability Act (HIPAA) coding structures, will govern. We will only accept HIPAA-compliant coding structures that are valid at the time the health care services are given.
