

## AETNA BETTER HEALTH® OF PENNSYLVANIA AETNA BETTER HEALTH® KIDS

### Antiretroviral Medications: Diagnosis Confirmation Requirement Effective April 1, 2019

Effective **4/1/2019**, Aetna Better Health® of Pennsylvania will require confirmation of an HIV diagnosis for antiretroviral medications. This requirement **does not apply to Pre-Exposure Prophylaxis (PrEP)** for HIV (e.g. Truvada®).

In an effort to streamline the process, we are implementing point-of-sale (POS) edits to allow antiretroviral prescriptions to automatically process at the pharmacy if we already have a diagnosis on file. Alternatively, the pharmacist will also be able to confirm your patient's diagnosis by entering the ICD-10 in the pharmacy system. **We strongly encourage you to provide an ICD-10 code on the prescription to assist the pharmacist in the processing of your patient's prescription and avoid a rejection for prior authorization.** For your reference, a list of the covered ICD-10 codes is included below\*.
