## **AETNA BETTER HEALTH®**

### **Rural Health Clinic (RHC)/Federally Qualified Health Clinic (FQHC) Billing Update**

Dear Provider:

Effective **January 1, 2016** Aetna Better Health (ABH) will reimburse FQHC and RHC providers, at a minimum, the all-inclusive rate set by the Department of Human Services. As a result, provider groups should submit all applicable claims with the required T1015, Clinic Visit/Encounter All-Inclusive, HCPCS code along with the appropriate modifiers on the CMS-1500 claim form.

The additional information listed below also ensures accurate and timely claims payment.

- Although other CPT codes for services performed the same day, when billed with the required T1015 code, are not eligible for separate reimbursement, they must be present for reporting and claims processing purposes.
- FQHCs and RHCs must bill applicable location codes.
- FQHCs and RHCs will be reimbursed at the all-inclusive rate only when the required T1015 code is billed on the first line of the claim.
- It is necessary to include the rendering physician's name and NPI on the claim.

#### **Questions?**

We're here to help. Just contact our provider relations department at **1-866-638-1232**. Thank you for the excellent care you give our members.

Sincerely,

Dwayne Parker  
Director of Provider Relations
